Summary

Typical Computer Science student with a not so hidden twist. I love game programming. Equipped with 2+ years of experience developing games in school, professional work environments, and as a hobby. Proficient in C#, and Unity engine, with a strong foundation in software design principles and algorithms. Passionate about creating engaging gameplay experiences and driven to learn and grow as a game programmer. Ready to apply my skills and experience to contribute to the success of a dynamic game development team.
